Further Experience

2020 2017	**Fontanelle SRL**

Architect, EDGE & BIM Expert
Working in a Real Estate Developer company allowed me to evolve and craft my design skills as a leader of a revolutionary process. This enabled me to adopt new technologies and search new ways to build sustainable buildings.

2017 — **Scuola Italiana Cristoforo Colombo**
IT Coordinator
I always dreamed about working at investigating new ways of blending tech into the classroom. At the Italian school Cristoforo Colombo that was possible. In close relationship with teachers and students, I implemented Google for Education in the institution.

2013 — *Digital Educational Content Creator*
A passionate for education, I started working for my school aiming at developing personalized digital ibooks. Working with teachers and re-thinking how content could be more enjoyable to students was an unforgettable experience.

" If everyone is busy making everything, how can anyone perfect anything? "
